

HELIMED 800 Cycle Ride 2007 Route

Route: Munich (Munchen) to Blackpool

This route was suggested by Neil Mocham. Initially what we wanted was a link between the very first European air ambulance and NWAA. Help from Sarah at NWAA HQ, established where we are starting from, Munchen. Munchen air ambulance was established on 1st November 1970. The aircraft operates from Munchen hospital. I will obtain more accurate details as soon as possible.

Schedule: Cycling between 30 and 70 miles a day.

The route plan

Across Europe:
